an application not more than three months prior to the filing of this Information Disclosure Statement.

Enclosed European Patent No. 415905 is not in the English language. The International Search Report characterizes this as a document defining the general state of the art which is not considered to be of particular relevance. It relates to ion exchange treatment of fruit and vegetable juice for removal of aromatic materials.

This statement is provided in order to comply with 37 CAR §1.56, §1.97 and §1.98, and this statement is not to be construed as a representation that no information exists which is more material than these references, or that the information is considered to be material to patent ability.

Respectfully submitted,
